Dear Geneie:

I want to take this opportunity to thank you for bringing such a helpful and meaningful program to our nurses on the Mississippi Gulf Coast. You and your team did an outstanding job of making the attendees comfortable, yet helping them express the effects of their own trauma while learning to help others.

The evaluations of the program have been especially good, and you are to be commended for helping these nurses deal, not only with the lingering effects of Hurricane Katrina, but the new stresses of the BP Oil Spill. They have been through five years of continuous stress, and this program meant so much to them.

I want to thank you, too, for your warm and engaging style and for the excellent team you brought to our program. Each of them was very special in their own way and greatly contributed to the success of our program.

I hope that we will have the opportunity to use the services of Trauma First Aide Associates again. It was so good to have an opportunity to spend time with you, and I am so grateful for all of the help you gave to our nurses.

Thank you, again, and I look forward to seeing you again in the near future.

Sincerely,

Ricki R. Garrett, Ph.D.  
Executive Director
